

Herman Wallace statement for BPP anniversary

Attached is a statement from Herman - he hopes he's not too late - he had Angad record this for you but it got messed up. Latest pics also attached .M

My name is Herman Wallace and in these times, whether conscious or not, be mindful that this is not an era of people's revolution but rather an inevitable world revolution guided by the representation of capitalism and imperialism. What we are witnessing in Iraq, Tunisia, Egypt and Libya are acts of bourgeois aggression guided towards bourgeois democracy.

Here in the United States, we tolerate 2.4 million of our citizens in prison, hundreds of thousands of them for political reasons - and we support it through our silence. We have cops in every major city extorting, beating, raping and killing innocent people and getting away with it under the guise of justifiable homicide and self-defense.

Home owners are losing mortgages on their estates. Jobs are shipped overseas. Automated cybernation has taken the remaining jobs. Your tax dollars are designed to build schools of learning are now being used to build prisons of oppression. Healthcare is just about non-existent in the United States and yet we support wars of aggression.

45 years ago we were confronted with identical contradictions that created the existence of the Black Panther Party For Self Defense. My political consciousness was formed in that era and my personal transformation during the process affords me an indelible mental protection - such is the key to the mental stability of every one of us who continue to adhere to the principles of the Black Panther Party. As long as we exist, we continue to be servants of the people, dedicated to justice and not Just Us!

ALL POWER TO THE PEOPLE.
