UAACC is a registered community based NGO since 1991
“Sharing Knowledge for Community Development”

May 4, 2008

To all our Comrades and Family

Reference: Message of gratitude from UAACC community

On behalf of the students, volunteers and staff at the United African Alliance Community Center and on behalf of the elders and youth of Imbaseni Village, we wish to express our profound gratitude for the concern and love that you showed to all of us through the assistance, both monetary contributions and moral/spiritual support, that you showered on our UAACC representative for the Heal the Community Tour 2008, Mama Charlotte O’Neal.

It is through the support like yours that we have been able to carry on our community work and outreach for more than three decades.

You not only assisted to arrange the very full itinerary of speaking and performance engagements at several universities, colleges, community centers and art centers; radio and television interviews, book signings and networking opportunities, in countless cities across America, but many of you also opened your homes and your very hearts and offered comfort and love to our oft times weary ‘Warrior Woman’ in her time of need thus easing her stress and helping to recharge her depleted batteries!

We look forward to reciprocating the tremendous hospitality and community spirit that you showed to Mama Charlotte and the work that we continue to strive to do at UAACC and we look forward to building even closer relationships with your community.

In the Spirit of Community and Global Unity I salute each and ever one of you!
Aluta Continua!

Mzee Pete O’Neal
Founder and Director UAACC
