

WE MUST UNITE

Black brothers and sisters of Babylon, let us not forget, that before there can be a revolution to bring about total emancipation for our people and other oppressed people here in America, first we must have unification of our people in this land of bondage. For over four hundred years our people have been divided; however, today is a new day and the future is bright. We no longer have to be in darkness, the bright future I speak of is Socialism, which can be achieved with the unification of our people. Black people let me point out to you, that it is your duty to struggle for the togetherness of our people. The hour is nearing where revolution is inevitable, therefore the "cry" must at all cost continue to go out-calling our people to arm themselves for the sake of survival and humanity. The Black Panther Party is calling upon the brothers in the North and the brothers in the South, as well as in the East and West to unite and prepare for a long battle. We, who understand what the struggle is all about must never forget that it is our revolutionary duty to go forth to our brothers and sisters and educate them as to our political beliefs and objectives.

Black toilers, we cannot allow ourselves to give the oppressor one single inch of slack, one way of tightening up the noose around the slavemaster's neck, is through our journalists and the use of the powerful pen. All journalists must come to understand, that you play a key role in our just struggle for total freedom. It is your duty to cut the oppressor to pieces with your pen. Too long our Black brothers and sisters have been misled by Black reactionary - writing journalists, who write only for the sake of a

buck, thus plunging our people deeper in confusion, undermining their consciousness, causing apathy and creating dissention. We can no longer allow this to continue. The desperate hour has arrived where all Black journalists must search themselves and decide who they will serve: It's either the capitalist-imperialist parasite, or the masses of toilers here in Babylon. The unification of our people can be done very rapidly with your help and, of course, the correct use of your pen.

Brothers and sisters, the capitalist-imperialist jingoist is preparing to exterminate us. Past history teaches us that the Indians were exterminated here in America and thousands upon thousands of Japanese were exterminated in Japan during World War II. Today, at this very hour, the same oppressor is trying to exterminate the courageous people of Vietnam and just a short distance away lies North Korea with over 40 million people led by their beloved leader Kim Il Sung. The U.S. have threatened North Korea with aggression and extermination because the masses of North Korea, as well as the South have expressed their desire for the unification of their people. War is sure to come to that land, all out war, however, with the unification of the North and the South, struggling together against U.S. Imperialism the Korean people are sure to be victorious, thus freeing their brothers and sisters in the South from the clutches of U.S. imperialism.

We as Blacks must unite and struggle against this fascist government. It is important that we begin to take time with our people, help them to understand that

we must resist the fascist power structure, we have to stop embracing the oppressor's values, in other words: Nigger, come out of that Cadillac stop running around talking that madness about "I can't join with you, because I am an individualist, doing my own thing." Maybe so, but let me point out to you, that it is brothers and sisters like you (if the shoe fits, wear it) that are setting the struggle back, by being concerned only about yourself.

Brothers and sisters who desire to be so-called 'individualists', if you will stop and check yourself out you will find that the oppressor has done a very good job on you, whereas you are being used like tools to keep the masses of Black people divided. How long must we allow this to continue, I am not about to try to explain the time involved, however I will say this, we want out people unified for the purpose of struggling for total freedom and anyone talking that individualism-madness is either a fool or an agent for the oppressor. You know who you are, so I say, "get hip to yourself and get with the revolutionary struggle."

Huey P. Newton, our courageous leader, stood up like a man and dealt with the racist pigs in such a manner that all Black people may learn from his example. Remember brothers and sisters, it was Huey who said that "the racist pigs must withdraw from our communities, cease their wanton murder and brutality of Black people or face the wrath of the armed people." When Huey made this statement, he was not just not just talking about the brothers on the West Coast, Huey was talking about all Black people throughout the whole of Babylon.

"...Only by taking up arms can we seize power. Without taking up arms we cannot attain power... In order to seize power we should wage an armed struggle; it is impossible to seize power by playing elections."

Black brothers and sisters, let us not forget our duties as revolutionaries, we must expose all elements that are against our cause.

We don't have a whole lot of time to waste, because that pig is moving and has planned already how Black people are to be exterminated in the Black colonies throughout this nation. Therefore, it is a must, that the unification of our people be stepped up, for the purpose of fighting this low-lived beast until death to it part. We said "no more brothers in jail" and "no more pigs in our community" we have told them (the pigs) to get out, but they are still in our community and not because these pigs can't die, it is because our people are not unified as one nation of people, struggling against the pigs and their dictator, the fascist power structure.

The Black Panther Party's Ten Point Platform and Program was put together for all Black people and the pigs are trying to destroy the peoples' program. Nigger listen, many Black brothers have laid down their lives for this program and the freedom of Black people, sisters and brothers are still in the fascist pig pens for standing up in defense of Black people and all other oppressed people, not only here in Babylon, but throughout the whole world. Our Party's Chairman, Bobby Seale is facing the electric chair because he stood up like a man and struggled for the total emancipation of our people. Bobby told it like it is and the power structure and their fascist pig lap dogs couldn't dig it, at this very hour those sadistic barbarian butchers have put the blue print together to take our Party's Chairman's life.

The pigs must be driven out of our community and all bootlicking nigger agents of the pigs, who are supporting the enemy by setting up all kinds of live programs to make Black people believe that they are for our cause. We know these flunkies are only serving the slavemaster. We have to be very careful, brothers and sisters, and we must begin to pay close attention to those we call our friends. If a brother or sister is for our freedom, then they will struggle with us for the unification of our people and take up arms against the oppressor, dealing a crushing blow to the enemy of the toilers of Babylon. If they can not do this, then how can they be for our cause. We have drawn the line - either you are with us or you are against us: there can be no in between, that is totally our of the question.

History teaches us that before there can be total emancipation, there must be war. In Russia it was guns in the hands of the masses of Russian people that created "Socialism" in that country under the leadership of V. I. Lenin. In China the Chinese fought a bloody war, a peoples' war and today there is "Socialism" in China. Cuba fought and now it is a socialist country. Brothers and sisters, we too are going to have to fight, not in Vietnam or Korea, etc., but right here in Babylon, in the land of injustice.

The unification of our people is the key that will open the door to total freedom. We must unite to overthrow this oppressive system once and for all.

PANTHER COMMUNITY SERVICE free breakfast for children is being served at St. Martin DePorres Recreation hall. Shown here pouring milk for three youngsters is Black Panther Warren Heart.

FREE BREAKFAST IN BALTIMORE

The Baltimore Chapter of the Black Panther Party initiated its Breakfast Program at St. Martin DePorres Recreation Hall, at Valley and Eager Streets.

At the present time the Black Panthers are feeding 150 to 170 children on a daily basis. Due to the bad transit system, here in Baltimore it is necessary for the Black Panther Party to bus 50% of the children in to the Breakfast Program. It is evident that the community is in favor of this program by the amount of children that

are being fed.

We will continue this program throughout the summer into the coming school year. However, we will feed twice as many this summer; instead of a Breakfast Program, we will have a lunch program during the summer.

It is the goal of the Black Panther Party to feed all of the hungry children in Maryland. A second recreation hall was donated to the people by a revolutionary attorney, Mrs. Lena Lee, also a legislator in the state of Maryland. This hall

will be used to feed children, conduct classes in Business Administration, Law and hold rallies for our young people. Also in the same block the Black Panther Party will manage a revolutionary movie. At our first showing, we will have "Off The Pig" and "Huey".

THE BALTIMORE PEOPLE'S FREE CLOTHING PROGRAM OPENS

Throughout the Black communities of racist America, the people suffer many pains and miseries. Unlike the communities of the oppressor, our communities are filled with people who suffer from a lack of decent housing, clothing, food and medical attention, as well as many other basic needs. Decent clothing, as only part of what the oppressor denies Black and oppressed people, is one of the needs that we must insure for our people, if we are to survive in this racist empire.

Without proper clothing to protect our bodies, from the forces of nature, we cannot survive. Therefore one of the survival programs that the Baltimore Chapter of the Black Panther Party has implemented to aid oppressed people in the everyday struggle to survive is a People's Free Clothing Program.

After obtaining a former cleaners on the West Side, we transformed it into the People's Free Clothing and Free Shoe Program. This program provides clothing and shoes for the people, and there is a pressing machine to press the People's clothes and a sewing machine, with which we can tailor the people's clothes. All of these services all free.

The People's Free Clothing Program is located at 1829 Edmondson Avenue, Baltimore, Maryland.
