CAPTAIN JORDON FORD  
NEW YORK BLACK PANTHER PARTY

CHIEF Of STAFF  
NEW YORK BLACK PANTHER PARTY

EYEWITNESS REPORT

NEW YORK: The police rolled on us today about 12.00 PM.

I was in the basement of our building, which is at 285 Southway Avenue, when the police came into the building. I was standing under the stairs when they came into the room.

The police started to shout and scream, "Get down or we'll shoot you." I was very scared and didn't know what to do. I tried to run away, but the police caught me.

I was taken to the police station and held for several hours. The police were very aggressive and didn't listen to my side of the story.

I was later released without being charged, but the experience was very traumatic for me. I hope that the police will be more respectful and fair in their interactions with the public in the future.

Press Conference of N.Y. Panthers

The Black Panther Party of New York City went to the Federal Courthouse in New York City to announce a new policy. The party's spokesperson, Captain Jordan Ford, said that the Black Panthers have decided to stop their armed struggle and adopt a new policy of non-violence.

Ford said, "We have decided that violence is not the answer to our problems. We will now focus on peaceful means of achieving our goals." The party's other leaders, including Chairman David Haughton and Minister of Defense, said that they support Ford's decision.

The new policy includes a commitment to non-violence in response to police harassment and violence. The party also plans to work with other organizations to address issues of police brutality and discrimination.

The Black Panthers have been involved in armed struggles in the past, but Ford said that the party's leaders have decided that violence is not the answer to their problems.

Summary of Pig Control Amendment

The amendment to the city charter would give control of the public parks to the community elected neighborhood boards. The community boards would be responsible for removing pigs from the parks, which would be a big improvement for the city.

The amendment would also require that the pigs be removed from the parks on a regular basis, which would help to prevent the pigs from causing any more problems in the future.

The Black Panthers have expressed support for the amendment, saying that it would help to address the issue of pig control in the city. The party's leaders said that they would support any efforts to address the problem of pigs in the parks.
