**an informal discussion
slide presentation of Douglas' artwork**

Emory Douglas, Black Panther Minister of Culture, created eye-catching artwork for the Black Panther Party's newspaper in the late 1960s and 1970s. Join us for a slide presentation and informal discussion of his images, which captured the struggles of black people in America. Douglas' most recent collection, *Black Panther: The Revolutionary Art of Emory Douglas*, will be available for sale.
