

Dr. Jahti Jackson we will remember you

I first met Jahti(Tony) back in 1972, it was during Bobby Seale's ran for the mayor office. I was running Bobby Seale's main campaign office. Jahti was a photographer and worked with Bunchy Crear who was a photographer for the BPP. We became friends and I would see him often, because he worked with the Campaign media crew. After the campaign was over I would see him taking photos at the Oakland Community School and other Party related events. After 1974 i didn't see Tony anymore.

In 1981 I was in NY Central Park and ran into him, and again in 1999 after we launched our our website www.itsabouttimebpp.com . He lived in Atlanta and worked for Jane Fonda's Community service organization. We established contact and I got him to come out to 40th yr reunion in Oakland before he died in 2008.

Before he died he donated his photos he had to It's About Time Archive, we value his collection

Billy X
