

Note:

I remember when Leslie came out from Philly with Ethel Paris and Regina Jennings back in 1969. Leslie was a fast learner, becoming a Panther after her training. We all worked out of the E.Oakland Office under the leadership of Robert Bay and Micheal D. Hill. Leslie was moved to Central HQ's and work there for a while and later became Bobby Seale personal secretary. A truly good person, a soft spoken sister with the big heart. She has always been an good example of a good Panther Sister.

Leon(Valentine) Hobbs:

I first met Valentine as we call him then, when the Seattle chapter sent members down to work on Bobby Seales campaign for mayor in 1971. Before that his hard working brother helped set up the Free Sidney Miller Medical Clinic back in 1969, which is well operating under the name Carol Downs Clinic today 2009 in Seattle. Valentine new area of work would be helping set up the George Jackson Free Clinic in Berkeley. Leon worked very hard @ all of his areas of work which included working to reopen the Fox theater in downtown Oakland, he was also aide to the Central Committee.

Recently Leon helped set up the Seattle 40th yr reunion(2008) and other functions dealing with legacy of the BPP in Seattle, he also helped It's About Time Committee when the reunion was held in Washington DC back in 2002
