Note: John passed away two years ago, he was the brother of Bobby Seale, and aide to the Central Committee. John worked at National Hq's. He worked on the newspaper, was a carpenter, a snappy dresser, and a good comrade. John worked hard to Free Bobby during the time Bobby Seale was in Chicago and New Haven. John worked endless hours on Survival Programs, like the the time we gave away 10,000 free bags of food and he was a top Security person.

Sister Alberta: One of the best minds in the BPP. She worked out of National HQ's, worked on the newspaper staff, and taught Political Education Classes. I would always see Alberta reading and studying. She traveled to Japan with Big man in 1970 to represent the Party and help organize. She was a good speaker, and she spoke at the United Front Against Fascism Conference, which was printed in the BPP newspaper. She is a beautiful person and great mind.
