IN COLD BLOOD

Brother James Hector died 19:12 Monday night at a Berkeley hospital — murdered by the Alameda County jail in the name of justice, according to the case of PEOPLE'S PARK.

James Hector was shot in Berkeley on Saturday. He was shot twice, once by a man with a 12-gauge shotgun, who had been fitted with double castle breachheads. A shot of a 28-gauge round lodged in his heart, causing death.

In the internal rhetoric of the Berkeley Free Press, the public is informed that the police did not have a warrant for the arrest of James Hector. The police said he was carrying a firearm.

The government has announced its intent to murder 20 people under the guise of preventing violence, with the full knowledge of the number of lives it will save.

GAZETTE MAN BEAT INTO UNDERGROUND

by Jesse Erlich

Berkeley Gazette reporter and editor Jesse Erlich was beaten up on Saturday at a Berkeley demonstration. Erlich was wearing a white T-shirt and black pants when he was approached by a group of men who pulled him off the main stage and beat him up. He was left with a black eye and scratches on his face.

Erlich says he was standing on a stage when he was approached by the group of men. They punched and kicked him, then threw him to the ground. Erlich says he does not know who beat him up.

MASS ARRESTS

THE BIG LIE

The big lie, the half-truth, and the falloffs are the foundation of what supports the reign of police murder, clothing, and chemical terror unleashed on Berkeley since last Thursday.

Rudolph has been justified "historically" after the media has taken lethal assaults off police-issued metal from James Johnson's body.

Berkeley Mayor Wallace Johnson, a stooge-maker by profession, offered a tentative mini-park and People's Park as an alternative, but when pressed to answer yes or no on a crucial question, he said, "I have no idea."

A "subversive" park, one that the site of People's Park; not the city, nor the people who would have had the last word.

Berkeley City Councilman William Bailey reported to the City Council that demonstrators were throwing burning sticks, but failed to mention that a crowd on Ives Hall was bussed in and treated as a demonstrator.

The town was merely CA troops, although the suffering of victims was covered by the media as symptomatic of military gas and smoke which can be seen in the literature of tomatos.

The police, who were on the streets when the story appeared, are not known to have volunteered protest, despite the most extreme

BAD VIBES AT PEACE TABLE

by Steve Hallan

The second front of the People's War occurred Wednesday as representatives of the SFPD staged a protest outside the doors of People's Park.

"The town will only stay up, with an increasing number of arrests of community leaders, as community leaders, as a community, will have to come together to stop this," said Hallan.

All of the people rejected by the SFPD at a public meeting held Friday at the People's Park Visitor Center were arrested.

A joint press release was issued by the SFPD in response. It contained the following statement: "We believe the People's Park is a place for people to come together and enjoy themselves."

Mayor Johnson then said that the People's Park was a place for people to come together and enjoy themselves. He added that he would not approve any more press releases. "We have discussed this issue many times," he said. "We understand that there are differences of opinion on this matter."

After being expelled from the new park site by Highway Patrolmen, the group gathered at Shattuck and Cedar and began the march downtown.

Mass arrests began in Berkeley Thursday afternoon. This marks a new phase in the Man's attempt to crush the people's spirit.

Gurkis and pigs herded 250 people into a parking lot in downtown Berkeley and carted them off to Santa Rita in buses.

Those arrested were part of 1000 of the people who marched down Shattuck Avenue after the pigs barred them from building People's Park #5 at Henry and Bertrumian.

The group, which had been trying to set up a free community center in the old Eagle, was expelled from the site by Highway Patrolmen.

"We were trying to get food for the poor students who are being arrested," said one of the protesters. "They can't stay here anymore."

While the arrests continued, a crowd gathered at the Bancroft and Telegraph entrance to Pershing Square, and a crowd was dispersed without the use of force.

GREAT ESCAPE

Thirteen would-be renegades crossed the Bay Bridge on Thursday, but were caught by CBS and ABC news helicopters.

The three were arrested on the bridge and taken to the Alameda County Jail. They were charged with trespassing and妨害公务.

"We were trying to get food for the poor students who are being arrested," said one of the protesters. "This is why we are here."

GUESS WHERE?
CHOPPERS DROP GAS ON REBELS

by Kathy

The screams from the side traped to lower Speed Plaza was the first alert. Then the helicopter was over. White smoke-like gas was seen rising from the top of the building. It drifted down to the Plaza and quickly spread, causing great panic and fear. The National Guard had occupied the area.

Tuesday was to have been a day of peace and calm. But the bells of the University and the campus were silenced by the explosion of tear gas.

Led by associate psych prof Edward Sampson, the members of the Student Non-Violent Coordinating Committee (SNCC) and the Committee to Defend the Student Non-Violent Coordinating Committee (SDS) entered the Plaza. They were met with a wall of smoke and tear gas.

The pigs pushed the macabre marching. The members took cover in the nearby buildings. People were hit by the gas and screamed in pain.

At the corner of the building, two pigs were standing, watching as the smoke cleared. They were met with the cheers of the crowd.

Suddenly, a tear gas canister was thrown from the building. The gas spread rapidly, causing panic and fear. The pigs retreated, leaving the crowd to celebrate their victory.

The pigs claimed that they were protecting the area from further violence. But the crowd was not convinced. The gas had caused great suffering and fear.

In the end, the pigs had failed to stop the people from coming together. The gas had only served to unite them.

CHEM WARFARE CHARGE

The use of tear gas has been a controversial issue. Some people believe it is an effective way to control crowds, while others believe it is inhumane and should be banned.

The use of tear gas has caused many protests and demonstrations. People have been arrested and injured as a result of these incidents.

The use of tear gas has raised many questions about the role of law enforcement in society. People have demanded that the use of tear gas be limited and that it be used only in extreme circumstances.

The use of tear gas has also raised questions about the role of the media in reporting on these incidents. Some people believe that the media should not report on these incidents, while others believe that the media has a responsibility to report on them.

In the end, the use of tear gas has been a contentious issue. People have different opinions about its effectiveness and its impact on society.
