DR. SHOCKLEY PREACHES BLACK GENOCIDE

GUETTO DWELLERS MAY SOON FACE VIRTUAL STERILIZATION

PHILA. (AP-LNS) Sept. 9—How about that Shockley Science? Think about being federally banned from $1,000 to $10,000 depending upon your disability.

Dr. William Shockley, an electrical engineering professor at Stanford University, recently received national attention when he indicated that Black people are genetically inferior to whites. Dr. Shockley, a Nobel Prize winner in Physics, claimed that 1 percent of caucasian ancestry showed an IQ (Intelligence Quoia) rise of 1 point in mentally slow (Black) people.

Shockley, who spoke as a guest narrator at a symposium on social problems, said, "Thirty thousand dollars put in trust for a 20 IQ point of 20 child potential might return $250,000 to taxpayers in reduced costs of mental retardation law.

"Shockley claimed that the U.S. Govt. is, in effect, paying welfare recipients to have children. He felt that sterilization should be considered in return for special benefits for diabetics, epileptics, heroin addicts, and alcoholics, and those with "low intelligence."

The situation is such that Chicago now has the first city in the nation to witness the opening of 2 'Sperm Banks,' where the freezing and storing of sperm is conducted, for future use. They reported that a 17 year old male who was born in a test tube was physically well and academically talented.

American scientists and technicians have taken the first step in procuring. It remains one of defrocked real scientists, preoccupied with the obsession to 'do what has not been done.' At the heart of all, there 'ens a desire to forget the Family of Black people. Is it any wonder why slender Black flats are rated to scream the term, "GENOCIDE"? Who and what standard decides a person's intelligence quota? Who and what standard buys the seed of another man, to insure his eventual destruction?

In India, the Peace Corps is involved with a program of sterilization. According to a recent Time Magazine report, Indian men are given a choice of a very simple or a very dangerous method for their safety. The operation, called a vasectomy, takes a few minutes to perform, with a 94% chance of success, and with a 50% chance of never being reversal. It was reported that more men chose the radius.

What Black Americans should heed is that Dr. Shockley, and his kind, are dead wrong. If they are in all probability, unscrupulous racists who think they are performing the mass of Black people a favor.

If "Dr. Shockley and those who are convinced by his delirious wish to prove the white folks of this country, we ask them what better person to start with than that Philip Milhous, cousin to the President, Richard Milhous Nixon.

DR. WILLIAM SHOCKLEY—.. for low IQ Negro population, each one cost of Caucasian society raises IQ by one point!"

LETTER TO THE PARENTS OF CORNELIUS BUTLER

But for the fact of your age and the fact of your ignorance you would deserve the most unbearable condemnation. For no words are too strong or too pitiful for those who betray a twist or a loved one and live to deny it, that is what you did when you took your son, Cornelius Butler, over to the New York pig police. You will always be guilty of this and that time of pain is more than you will ever face. It is not our place, however, to deeply make others feel guilt. It is much better if people have the benefit of a simple understanding what's going on, the benefit of having light shed on areas that may be dark to them. Understanding them is the motive for this letter.

The first thing you must come to understand is that your son has, since his birth in this country, been related to an actual war against him as an enemy who is his superior in numbers and in weapons. Aside from being in a slave condition here, we are in the cold of the struggle that becomes more desperate as the days go by. In our fight for freedom, to be free men and women, we need all the help we can get. The enemy doesn't need any particular kind of help and he does it fit to give him.

If there are no black people in this country, and you are included among them, who believe we are already free despite all efforts to the contrary. But you know that is because they do not understand what being free really is. And having these inarticulate, immaculate hair, I wish you will take the trouble to look into the eyes of one whom you believe has gone and the good white people who represent 'law and order.' The census, the police, the judges.

In all years of living, you have yet to understand there are two kinds of 'law,' two kinds of 'justice' and two kinds of 'order.' One kind is for people like Edward Kennedy who could come up with an explanation and a reasonable excuse for his son and be turned into a genuine person; the other kind is for people like your son, who has only to be 'suspended' of something and be hauled like a animal. There is in other words, a law for the wealthy class in this country and a law for the poor class.

You had really stepped out of your 'place' when you asked why Cornelius was being charged with murder. The prosecutor really thought you had your nerve to say that. That's why he brought you to 'drop' that.

Oppressed people, Mr. & Mrs. Butler, have no rights that the oppressor is bound to respect and vice-versa. How can black people in this country possibly break the law when they are just laws (even the United States Constitution) are used against them in such a way as to delay them the equal protection of the law?

Justice isn't really blind. She only closes her eyes when it comes to our people and black people.

According to the article in the New York Post 8/14/71), you turned your son over to the pig police because they wanted him for murder and promised to shoot him down when they found him. Your responsibility and duty at that moment was to do all in your power to make him safe and secure from those dogs, to hide him and look after him. Why did you not use what you do have, a plate of beans, blanket for the cold, a spare room, a trunk of a friend's car to sleep in on a night when someone clothes them next time.

"We don't expect anything from this pig police, this police that, this police here. They will not do anything to help his son through beatings or torture, or if there is someone outside who visit him after. Therefore, they will attempt to move him from place to place in an effort to hide him from friends and relatives. They will also tell you they don't know what goes on.

"You should mistrust them with such, police organizations like the Black Panther Party New York, for New York, all states, in other words, control of their contact with their son. Trust nothing that is your own eyes that he is alive and well, they will not produce him for a visit, it must assume that he is dead of beat and so badly that they don't want anyone to know of a hick."

Nixon's Wage Price Freeze

The wage price freeze imposed across the nation on Aug. 15th by Nixon, was designed to curb inflation. Big business, however, seems to be reaping most of the benefits in this attempt to stabilize the economy.

In the Black and Puerto Rican community where unemployment is at an all-time high, and those who do work are in the worst paying jobs, the freeze on wages only has the effect of freezing our people in poverty. Where raises in pay have been suffered for and won, is a losing race to catch up with the rising prices, they have been canceled.

Initially the freeze was to last for 3 months, until the revile of New Nixon's tax package to accompany the freeze, lowers taxes for big business while having little or no effect on the average person.

Federal, State and City Government are cutting payrolls, and industry is laying off workers. This means that the already high unemployment rate in poor communities will continue to rise. Black and Puerto Rican people are always "last hired, first fired".

The freeze on rents will have little or no effect since they are indications that it will be lifted even while the freeze on wages is extended to remain. This will hit New Yorkers particularly hard. The result is an overreaching of rent control laws. Of course, once again, the Black and Puerto Rican community suffers the most, since money-hungry landlords have planned to raise already sky-high rents even more on apartments that are barely fit for human habitation.

No wonder Nixon calls on "Patrician" Ameikinka to support his economic programs. It is the American way for the rich to make even more money at the expense of the poor.

The war in Vietnam and huge business profits are responsible for inflation: for high prices and for high taxes. Yet the beneficiaries of Vietnam do not want an end to that war, and Nixon will not call a halt to spiraling profits.

GUNS AND THE PEOPLE

The Power Structure is trying to take away our right to bear arms, which was guaranteed by the 2nd Amendment to the Constitution, if you believe in that piece of paper.

Nevertheless, the government is trying to make it illegal to own a firearm of any type. They are telling white "Americans" that this is a "civilized" country and there is no need for anyone to possess a firearm, unless he or she is a member of the so-called peace force or the armed services. This maybe well and good for rich people and all those others who believe in Amerikinka, but how does it relate to poor and oppressed peoples, such as ourselves. It means that they don't want us to have guns to protect ourselves when they come busting down our doors saying "come on niggers lets go", if they say something at all.

We must begin to see that whatever policy this country makes, whether it's economic, social, or political, it's backed up by the use or threatened use of the gun. Where does this leave us? It leaves us defenseless, taking whatever shit is handed down, because they are armed and we aren't.

 Huey Newton, said something in this regard which we relate so very dearly, "An armed people are a slave, or subject to slavery at any given moment." We must begin to acquire arms, and leave their proper handling and instructions. We must get these guns by any means, legally if you can, or through your local street merchant if you can't. Start rifle clubs, pistol clubs, shotgun clubs, or a combination of these. Learn to use what you got, to get what you need, so that you will be prepared for whatever happens. A massacre happened at Attica, Anguilla, Jackson and Kent State and it can happen here. There is no other feeling in the world like being in a position where you need a piece of you don't got one. It just might be the last time you feel anything.

IN Y. N.Y. if you want a permit, you can get it from:

City of N.Y.
Firearms Control Board
112 White Street, that's right across the street from the Toonies. Check out the fascist National Rifle Association, you can learn a whole lot from them.

If you have a gun, get another. If you don't, you better get some. But, most of all, learn how to use it. You don't know as much about guns as you think you do.

BROWNSVILLE:
FREE LUNCH PROGRAM

In response to the act done in Willow and other federal-funded programs, a free lunch program was implemented at Ralph Coleman Community Center on July 6, in Brownsville, Blythe.

The problem of malnutrition is widespread in Brownsville. Malnutrition doesn't mean a lack of food, but rather a lack of eating the proper foods that are necessary for the body to function correctly. Malnutrition stems from not taking in the necessary quantity of these foods.

The children in Brownsville are mainly the victims of vitamin deficiency. Candy, potato chips, crackers, provide very little (if any) of the vitamins and minerals necessary for good health.

Brownsville is known to have many children in the area who are hungry and knowing that there are young brothers and sisters are our: the Black Panther Party, B.L.A.C. People's organization and the staff of Ralph Coleman Community Center supported a free lunch program for the youth.

The program fed approximately 200 children daily, and it was given each day during July, August, and part of September. The youth were very enthusiastic about the program. The teachers reported that children were more interested in school and were better-behaved.

The food was obtained from the supermarkets in the area. Some parents, however, complained that the food was not nutritious and did not provide enough热量 for their children.

THE STORY

The history of black people's lives in Mississippi has always been one where there is no certainty. Here in this right edge of Mississippi civil community, that history has been erased again with the murder of a 17-year-old black youth by a local white state trooper.

What happened to William Earl Murphy, a 17-year-old black man on a rural road's short distance from his home is typical of Black people's history, that is tragic. It is filled with typical southern lynching and also with the sort of racist ridiculousness of reason that pervades most black community confrontations with the police throughout the nation, year after year.

It was Friday night and Bill was going down the road to ask for a small loan from the white man he had worked for. He noticed that when he got to the house, around 11PM that night, that the truck was not there, so he concluded the man was not home.

Somewhere along the line, he did make contact with the man's wife, herself returning from work, and was told that the loan would not be made and he should probably go home and get some sleep for there was much obsessive work to be done the next morning.

Bill sat in the white man's house and started down the road on the short walk to his home less than a mile away. Suddenly state trooper climbed into his truck and said that he was drunk in public. "I'm not drunk and I'm not getting into that car," witnessed Bill told the officer. He was then handcuffed and placed in the car, which took him to the county jail.

Everyone let it go that, someone went to tell his folks, but everything seemed almost until the morning when word swept through the Black Community that Bill Murphy was being killed. Local newspaper said that he had been killed in the car with the policeman and in the process had been shot.

Not only did this make no sense to people who knew Bill, that Bill Murphy was not the kind of man to struggle with a policeman, but it didn't make any sense either to those who knew his father or sister like him who had a history of disrespect for black people.

What followed was a Black Community investigation. This investigation turned up a wealth of information, so much so that anyone in his right mind could not believe it was all true.

Starting at the beginning, some observers considered, the man who had passed him on the road noticed that he had some briefs with the white woman, clearly making no advances. It was right after this that the patrol car stopped him and placed him under arrest. The officer had not talked with the white woman, so he could not have been told any passwords had been made. Apparently trooper Murphy was just out to get his job's last night and Bill Murphy just happened to be there.

Another采购 from the incident pointed out by an observer noted that it was an instance where the same woman had been seen around the same area with trooper Murphy.

Some people even advanced that trooper Murphy may have dropped her off before trooper Murphy came out.

I hope this goes away, but from that point on, it is a clearly documented story of what followed can easily be uncovered. Once Bill was handed over to his back in the car, instead of going straight ahead on the small rural road and getting on the large highway, he turned off onto a side road with deserted farm houses. A mile or so down this road was where the incident took place. Although the pig content it all happened in the car, the Beefmaster highway and Bill Murphy's body speak to the contrary. On the ground were two moderate steel piddles of blood, a large white state and in addition blood from the point several questions arise.

1. At the first place, how and why would a man with his hands behind his back reach for a police officer's weapon inside a car?

2. If Bill was shot the car, why is there much blood on the highway instead of the car?

3. If Bill was shot in the car with the .327 magnum, why is there no bullet wound in the body?

Aiding to the fact that no one has talked about any injury of state trooper Murphy, within the car, certainly because it hasn't been seen or the evidence on the body.

There is no one on the road, so as if it had been stuck with an object.

There are two bullet holes, one in the left side of the back and another in the right side of the stomach, and not merely a single that in the stomach as claimed by the police as to have killed him.

Putting all this evidence together, it became easy for the Black Community investigators to reconstruct a more sensible series of events. What happened they say, is that Day took the side body with the intention of beating or killing Bill Murphy. He stopped and pulled the brother out of the car. There was a struggle over the officer's gun, which was fired, killed the gun in the forehead, causing the death and also making the officer's hand begin to fall forward. It fell, the pig fired, hitting the douring and falling Bill Murphy in the upper left shoulder. The theory of the gun was not as its power took it through his back and it came out of his stomach. Bill Murphy hit the ground and as he did he kind of fell on his face before meeting death on the highway. The position of the small droplets of blood which would come from the gun in his forehead, the larger droplets from the bullet holes and the side it lay on accounted for the account. In addition, the minimal powder burns on the body indicate that the almost point blank range that would not allow the gun to be in the car or the gun to be in the car.

Bill's parents, Mr. and Mrs. Johnson, never found out about their sold until 3AM the next morning, despite the fact that the dead, bloodied body was pronounced dead on arrival just after midnight. They were not even allowed to identify the body last to a wallet found in Bill's pocket, a wallet which contained no picture of nor even a social security number.

The clothes were being kept at late as a week after the murder. When the Lagarta and the local concerned black people said they wanted to have an autopsy performed, they were told by the Puck County officials that it would cost $200, cash on the spot.

This is more to be expected. Black people have joined together called mass meetings, taken collections and began a campaign to get an end to this kind of brutality which has become almost second nature.

An autopsy was performed at the university of North Carolina in chapel hill, and people, as expected, announced the results. Members of the city council of the NACCP, local ministers and others have called for the investigation to be released and the fact be known and decided upon a course of action. Some people have even answered by taking money from the bank and buying themselves a gun, maybe another gun.

One thing seems certain: the impact of Bill's murder on the black community and its efforts to exist in the midst of such brutal violence will play a large part in how the community feels about the situation.

"It's got to stop and it will stop here now," said a member of the nearby Greensville black community who was going to stop it, or we're going to stop it, But it is going to stop.

ROYAL OAK RACISTS BEAT BLACK MAN TO DEATH

On Friday, Sept. 18th, Ray A. Vaughn, 26, was viciously beaten to death by a mob of white racists after an incident which included five members of a local motorcycle club in Royal Oak, a suburb of Detroit. Royal Oak is a Detroit suburb with a population of 40,000 and only 25 of the 85,000 people are Black.

Ray Vaughn, a Vietnam veteran and member of the Marines' drum line, had come to Royal Oak Friday night to a party which was set-up in commemoration of the end of the Vietnam War season and the birthday of two of its members. Some 75 attended the party, six of them were Black.

At about 10:30PM, Mr. O'Brien, the drummer of the corps and host of the party, was standing on the couch with one of the Black members of the corps when a car drove up. The car approached them and the drummer asked the "men" (if you could call them men) in the car if they wanted assistance. One of them shouted, "Get you down in the city of Royal Oak without a trigger telling you what to do!" The pigs started to get out of the car but changed their minds and drove off.

At 11:00PM the people at the party heard someone outside shouting, "A trigger in Royal Oak." A trigger was reportedly at Royal Oak, it was severely damaged at Ray Vaughn, who was just returning from the store at that time with several other members of the corps. As he stepped into his car, he found his car's taillights were out and he was stabbed in the back by a beater who was beating the drums on a nearby street. By this time, several other people had come out of the house in the area and the pigs had begun to beat the people with any type of weapon.

While Ray was being beaten to death, two other racists in the area had run behind the house and were indiscriminately beating the other guests with a heavy electrical cable and lawn chairs.

The three pigs that had beaten Ray were named by the person of assaulting the people who had come out of the front of the house and the windows of five cars had been shattered in those sickness attacks.

The man who was killed was under the influence of alcohol and had been shot three times in the head with a .38 caliber revolver.

The racists were ordered to stop and their taillights were broken and all their personal property was "impounded." Lucas claimed that the basis for the shootings was because he had received word through the so-called "trigger group" that racists were planning a jail takeover with the intention of taking hostages and making some sort of announcement. Some of the racists were seen gang-raping women in the jail.

FROM EXPLOITATION AND RACISM TO FREEDOM AND LIBERATION (A report of the United Front of Cairo)

The beginning of the Black people of Cairo's current struggle was November 1, 1969, when the white vigilantes of Cairo shot into the all-black housing project for over 20 hours. This was the first time whites had done such violence on Blacks. It marked a new development, in that Black people stood up to the racists and refused to give in to their demands which were meant to keep the Black man in his place. Shortly after the shooting, the black citizens began an economic boycott against their white oppressors. They said, "White Hats Must Go or Black People Will Keep Their Daughters." The white hats did not go; they are still here and actively involved in violence against Blacks. However, another did the boycott stop. It is still in strong effect. As a matter of fact, whites did not go, but there is law of the white merchants has had to go, and others are still going as the strength and determination of the Black people grows.

The United Front. They called the Rev. Charles Koen to return to Cairo. The place of his birth, childhood and youth to lead them. Since then the Front has developed a strong local organization and has helped create several new groups in Cairo and a National Organization which covers the country.

The United Front has, through adverse opposition from the Mayor, the white citizens, the Governor and the Federal Government, remained. Early in the struggle, during the summer of 1969, the Front traveled to the State Capital with a "Resolution to Save Cairo," to Pharaoh Ogilvie to buy their homes, arrested over 200 Front supporters and refused to act on the resolution. Like Ogilvie, the city of Cairo and the retail merchants have turned down one specific proposal after another which has been drawn up by the Front as a means of ending the racial turmoil which would help bring peace and harmony to the city of deepudios. They, like the Governor responded, not with love, but with more violence.

Today, more than 100 additional state police are here at the request of the mayor. The police of the Black community include these well as whites in color and county law enforcement agencies. Even now Front officials have developed documents of progress to submit to responsible officials and businessmen in a comprehensive program to save the city.

The Black people here, for the most part, lived through 150 nights of shooting by whites into their neighborhoods and homes. Many have been wounded. Tragically some have lost their lives. Black people have not returned the violence as the whites. They have defended themselves in their homes. Hundreds have been arrested in Cairo. The Front has put up over $53,000.00 in bond. Many Blacks have been beaten, harassed and intimidated. A constant part of their lives. But their spirit remains high. Their awareness and understanding deep. They fight through God, have the strength and determination to resist and finally overcome their oppressors.

The Front has developed a Housing Corporation which has now been handed, despite strong opposition. Eventually 100 new homes for displaced Cairo's poor and 200 to 300 homes for sale will be built. A housing factory has been in operation for about 6 months. They have cut housing costs by a full one-third.

Economic development is reality. A clothing store, a food market and the beginning of a shopping center, long delayed by illegal moves by the Mayor, will be built. Other programs in employment and production are being developed on a cooperative basis so that all the people can benefit. Political education on a continuing and meaningful basis helps lead the Black population to more realistic and understandable involvement in the struggle. In the courts the Front has filed a

Richie 'Cookie' Williams, a 40-year-old political activist, a young, righteous Black woman, was picked up at 81st and his home in the Bronx and taken to the N.P.D.'s office. After being questioned for four hours without an attorney, she was held in $25,000 bail on a bank robbery charge. She was released on $25,000 bail on a bank robbery charge.

A week and a half later, the bail money charge was dropped, but not until she had been held on $50,000 bail as a material witness in the murder of Sam Napani.

She was just in jail, while the D.A. marshaled resources, all the while keeping her jilted 'for the best interest of Cookie.' Cooke stood, in open court, and she was indicted.

The basis of this indictment is that she was accused of being a party to the murder of Sam Napani.

CONCERNING HARD DRUGS: ONE ASPECT OF OUR STRUGGLE

Because of the widespread use of hard drugs in the black community and the obvious political indifference and inability to deal with this plague in our communities, it is the duty of the people who suffer most from drug traffic to put an end to this plague. It is our duty as victims of both police corruption and black predicament to give no quarter to those who would profit from our destruction. For too long we have given refuge to the Merchants of Death in our midst, by our very association with them in after hours spots, gambling dens, and the like, when we are allowed immunity from persecution because of police corruption.

If our people are to acquire their liberation from the exploitative forces that control us, we must draw a clear line between those who are backwards and unenlightened, from those who are backwardly and informed. The very nature of our situation as a whole, our historical and present relationship to the police and the courts, excluding these aspects of the state from our consciousness, is the result of our own existence in a system of drug addiction and pimping, not by turning the drug over to the black community that has served our interests that make our lives worthwhile.

The purpose of the police when they ask us to tell our 'problems' is to use us to create a black community that will be divided against itself and will not be able to stand up for itself. They are using us to divide the black community against itself and will not be able to stand up for itself. They are using us to divide the black community against itself and will not be able to stand up for itself.

TRIAL NEWS

HARLEM SIX: The Charter Group for a pledge of Conscience filed a complaint with the previous committee of the New York Bar Association asking for the withdrawal of Asst. D.A. Robert Leibson from the case. He has been processing it for seven years.

CARLOS FELICIANO: pleased not guilty to two counts of perjury and one count of possession of an unregistered firearm. The charges were filed Sept. 21 by Asst. D.A. John Fine. Carlos is being held on $30,000 bail on these charges.

L.A.13: The prosecution is still presenting its case. A lot of the testimony is surrounding the claiming of the 77th precinct stationhouse. The prosecution is in danger of losing this argument. The defense is in danger of losing this argument.

EDDIE JOSEPH, RICHARD MOORE, and JAYSON MASON: pleaded guilty to second degree robbery in connection with the robbery of the Triple G after hours spot in the Bronx. The bros said they robbed it because it was frequented by pimps and hustlers. They will be sentenced on Nov. 1.

RICHARD CLARE, HERBERT BERTHAU, and HERBERT CROWLEY: three of the chief spokesmen for the inmates during the Attica takeover are in the Tombs and at the time of this writing, they were still alive.

FRED "SOLITARY" FERNANDEZ: one of the defendants in the RAM conspiracy case was found guilty of armed robbery and sentenced to 20 years.

LEO WOODBURY & TYRONE SIMMONS: still haven't entered a plea. Leo still doesn't have a lawyer and he won't go a year without one. They returned to court on Tuesday.

The National Committee for Defense of Political Prisoners is in dire need of funds for legal defense, commissary, and items of clothing for brothers and sisters in the jails.

We receive word from such revolutionary brothers as John Cluchasen, Sen Quenten, James Dunn, Danmamme, Leo Woodbury, Ikery, Raymond Early, Denver; Ronald Erwin, Detroit; Elmer "Ceremonial" Prat, L.A., to the effect that they feel they've been left to go it alone or worse, to be forgotten.

Help support these valiant brothers and sisters by sending checks or money orders to:

In Solidarity With Attica From Other POWs

"FREE ALL PRISONERS OF WAR!
EQUAL RIGHTS FOR ALL!

POWER, SISTERS & BROTHERS:
We have been informed that the prisoners in Attica Correction Camp have rebelled against their oppressors and are burning the prison. (Attica) to the ground. This is a very significant portion of the process toward liberation and revolution on behalf of us behind these walls. It indicates an elevation in our struggle to reach (free) ourselves from these plantations immediately and for the separation realization of the prolonged armed struggle confronting all oppressed people in America.

As Chairman Mao proclaims, a single spark can start a forest fire. It is your inspiring, revolutionary deed which gives us warmth and guides us in our struggles, because they embody the genuine spirit of the people and the revolutionary principles we defend. Once again I embrace all of my comrades in the vanguard party which is fighting on all fronts to exterminate the global menace that plagues struggling humanity...I also submit to the will of the vanguard revolutionary Party, P.R.F. (People's Revolutionary Front) a loyal comrade who shall become part of your tasks and accept your leadership of the most revolutionary class in the struggle.

POWER TO THE PEOPLE!
JAMES KATON DUNN

RIKERS ISLAND:
The brothers were arrested and sent to the Attica maximum. The effects here can be seen everywhere. The brothers here warn black arm bands. Not just because of mourning, but also as a show of solidarity with the brothers who are dead. We will not allow our grief to crumble us. In fact, this will only add fuel to the burning rage within our hearts.

Their deaths will not be overlooked. Their fight for freedom will be won. And their murders, their oppression, will be avenged as in the case of our own black brothers.

SAN QUENTIN:
We want to express our feelings regarding the information that our brothers at Attica suffered and how to endure. It's utterly impossible to express our feelings regarding the brothers. We love them. They're dead! Words are so inadequate at times like these... But I want you to know that we feel the pain, although we can't express it with words.

Power to the families of the brothers and all power to the people!

"DON'T BE SHOCKED WHEN I SAY THAT I WAS IN PRISON. YOU'RE STILL IN PRISON. THAT'S WHAT AMERICA MEANS - PRISON. WHO CAN DENY THIS? THIS IS TRUE FOR THE BLACK MAN. NO MATTER HOW HIGH HE RISES, HE NEVER LOSES CONSCIOUSNESS OF THE INVISIBLE BARS WHICH HEM HIM IN.
WE DIDN'T LAND ON PLYMOUTH ROCK; IT LANDED ON US."
